

# There are THREE methods to beat the Daily Pick

games     .....and each method is more POWERFUL than the one before it!

## METHOD ONE

Lottery News Method (LNM): The least popular source of data is [www.lotterypost.com](http://www.lotterypost.com) website! Our expert Lottery Analyst researches lottery news events everyday on that site to post winning lottery number predictions for novice or seasoned lottery players. Go to that website, click on the link: News or Lottery News. You will see both old and current news events related to the lottery. There is also [www.lottery.com](http://www.lottery.com) with the same type of news feeds as the previously mentioned site. Another source for news events albeit unrelated to lottery industry news is [www.npr.org/sections/news](http://www.npr.org/sections/news). This website contains up-to-date information on local, national or world news. Magic City Lotto™ has collected tons of data of about 500 news events. **THIS INCREDIBLE METHOD IS OFFERED FOR FREE TO THE PUBLIC!!!**

## METHOD TWO

Spirit Manifestation Method (SMM): Everyone has come across repeating number sequences in their life at one point or the other. 111, 222, 333 and 444 e.t.c. aren't just random numbers! In fact, they have specific and urgent messages to convey to you. It may also happen that you keep seeing the same number multiple times on clocks, license plates, federal reserve notes, e.t.c. It is said that these number sequences are messages passed to us by spirit beings who are watching over us individually. Using the techniques of affirmative prayer, chanting, e.t.c. allows us to deliver a specific message to these spirit beings...enabling us to receive a Thought Number® or symbol that will lead to wealth and abundance by predicting winning lottery numbers. **THIS INCREDIBLE METHOD IS OFFERED FOR FREE TO THE PUBLIC!!!**

## METHOD THREE

Mental Database Method (MDM): Since the average human thinks 69,000 thoughts per day (49 TPM) it's not surprising that our most popular source of data is our very own mental thoughts! Most people have no idea how to choose their best personal lottery numbers. And, in fact, few people have any idea of what numbers to play for the best chance of winning a lottery cash prize. The Mental Database Method quickly and easily finds the best winning lottery numbers. By targeting right in on your Mental Database, Apollo can help you find the genuine lottery numbers for 2, 3, 4 or 5 digit lotteries to play. He will unlock or search your Mental Database to give you valuable information of your personal individually selected daily Thought Numbers® to play each and every day! Thoughts are a living, vibrating mass of Energy Packets (Photons) that are every bit as REAL and ALIVE as you and I. Thoughts cannot be physically sensed or experienced with the *five basic* human senses (sight, sound, touch, taste, smell); yet, THOUGHTS are certainly REAL, and will ultimately determine your success or failure in life. The power of thoughts and the quality of the consistent thoughts you CHOOSE to define shape the three main areas in life (health, wealth and love)! **THERE IS NO OTHER WAY TO PLAY THE LOTTERY THAN CAN BE AS PROFITABLE AS THE METHOD THREE! THE WIN PERCENTAGE CAN BE AN ASTOUNDING...UP TO 90% FOR LOWER LEVEL PRIZES! THESE INCREDIBLE METHODS ARE OFFERED WITH PRIVATE INSTRUCTIONS.**
